

ATTENTION PARENTS:

STOP
MENINGITIS

**Adolescents and young adults
are at risk of getting a very
serious type of meningitis**

*Is someone in your family
11 through 18 years old?*

IF SO, ASK ABOUT VACCINATION!

**National
Foundation for
Infectious
Diseases**

A public education initiative brought to you by the National Foundation for Infectious Diseases in collaboration with leading healthcare organizations. The goals of this program are supported by the Centers for Disease Control and Prevention. For more information and a list of supporting organizations and additional resource materials, please visit adolescentvaccination.org.
